

Medical Director

BONESUPPORT AB is a Swedish medical technology company dedicated to the development of injectable bone-like materials for the treatment of various defects, including fragility fractures caused by osteoporosis. BONESUPPORT AB was founded in 1999 and is based at Ideon Science Park in Lund, Sweden. It has subsidiaries in the USA, Germany and Netherlands. CERAMENT™|SPINE SUPPORT, the key product of BONESUPPORT™ received EU approval in 2008 for treatment of vertebral fractures in patients with osteoporosis. BONESUPPORT™ has developed a number of new, patented technologies and applications. (See further information on www.bonesupport.com)

We are now expanding aggressively in Europe and US, with an extensive medical marketing program including clinical trials on the agenda. Therefore, we are now looking for a Medical Director.

THE POSITION

This is a key role for the Company. You will have a global responsibility for our overall Medical Affairs strategy and execution. This means that you develop and implement needed clinical trial program for both regulatory purposes and for medical marketing. Among other tasks you will together with the commercial function create and communicate key scientific messages to the market, key opinion leaders and to customers.

The position is based in our head office in Lund.

YOUR BACKGROUND - REQUIREMENTS

You are a M.D., Ph.D., preferably specialist in a relevant discipline like surgical discipline preferably Orthopedic surgery or Spine. You have a couple of years experience from a similar position in the pharmaceutical or medical device industry. It is important that you have a commercial interest.

YOUR APPLICATION

We would like to have your application marked "Medical Director" with CV and covering letter by e-mail. Send the application to lennart.hansson@bonesupport.com.

If you have any questions regarding the position please contact Lennart Hansson, Human Resources lennart.hansson@bonesupport.com; mobile +46 (0)70 527 7610
