

BONESUPPORT™ APPOINTS HELENA L BRANDT AS HEAD OF HUMAN RESOURCES

Lund, Sweden, 12.00 CEST, 13 October 2017 – BONESUPPORT™, an emerging leader in innovative injectable bio-ceramic bone substitute products to treat bone voids caused by trauma, infection, disease or related surgery based on its unique CERAMENT® platform announces the appointment of Helena L Brandt as its new Head of Human Resources. Her appointment is to meet the demands of a fast moving market and the growing professional global leadership team. Reporting directly to CEO Richard Davies Helena will join the Executive Leadership Team.

Helena L Brandt has more than 20 years of HR and leadership experience working with organizations operating within the field of Research & Development. Her career includes positions at large global companies such as TetraPak, Sony Ericsson and AstraZeneca and with smaller fast growing companies. Helena held several, mainly global, HR business partner positions at Director and VP-level focusing on company leadership, internal communications, culture and competence development. Helena will join BONESUPPORT on 16 October.

About BONESUPPORT™

BONESUPPORT is an innovative and rapidly growing commercial stage orthobiologics company, based in Lund, Sweden. The Company develops and commercializes innovative injectable bio-ceramic bone graft substitutes that remodel to the patient's own bone and have the capability of eluting drugs directly into the bone void.

BONESUPPORT's marketed bio-ceramic bone graft substitutes CERAMENT® BONE VOID FILLER (BVF), CERAMENT® G* and CERAMENT® V* are all based on the Company's novel and proprietary CERAMENT technology platform.

The Company's products are targeting a large addressable market opportunity across trauma, chronic osteomyelitis (bone infection), revision arthroplasty (replacement of a joint prosthesis) and infected diabetic foot.

BONESUPPORT's total sales increased from SEK 41 million in 2014 to SEK 105 million in 2016, representing a compound annual growth rate of 60 percent. The Company's financial target is to achieve revenue exceeding SEK 500 million in the financial year 2020, with a gross margin exceeding 85 percent and a positive operating profit.

The Company's research and development is focused on the continuing development and refinement of its CERAMENT technology to extend its use into additional indications by the elution of other drugs and therapeutic agents. The Company currently has a pipeline of pre-clinical product candidates that have been designed to promote bone growth.
