

BONESUPPORT AWARDED SYNTHETIC IMPLANTABLE PRODUCTS AGREEMENT WITH PREMIER

----- This press release has been modified to comply with the Premier IR guidelines -----

Lund, Sweden, 13.00 CET, 20 April 2021 – BONESUPPORT™, an emerging leader in orthobiologics for the management of bone injuries, has been awarded a group purchasing agreement for Synthetic Implantable Products with Premier. Effective July 1st, the new agreement allows Premier members, at their discretion, to take advantage of pricing and terms pre-negotiated by Premier for CERAMENT® BONE VOID FILLER.

“The awarded contract by Premier is a strong testimony and confirmation of the unique value CERAMENT offers hospitals, surgeons and patients. This agreement will further increase our potential reach across the US market”, said Emil Billbäck, CEO of BONESUPPORT.

CERAMENT BONE VOID FILLER is an injectable, moldable and drillable synthetic bone graft substitute designed to help the bone heal in a natural way. CERAMENT resorbs at the same rate that bone forms and is ideal for both minimally invasive surgery and open procedures where bone remodelling is required.

Premier is a leading healthcare improvement company, uniting an alliance of more than 4,100 U.S. hospitals to transform healthcare. With integrated data and analytics, collaboratives, supply chain solutions, and advisory and other services, Premier enables better care and outcomes at a lower cost.
