

OUTPATIENT REIMBURSEMENT PROGRAM

**Approved for Transitional Pass-Through Payment (TPT)**

CERAMENT® G with Gentamicin has been approved for outpatient reimbursement through CMS's Transitional Pass Through payment. This payment is intended to reimburse hospital outpatient departments and ambulatory surgical centers for the incremental cost of CERAMENT® G with Gentamicin. The purpose of this reimbursement program is to expand access to new technology and provide for more effective treatment or diagnosis of life-threatening or irreversibly debilitating diseases or conditions than current standard of care/alternatives.

HCPCS Code	HCPCS Code Description
C1602	Orthopedic/device/drug matrix/absorbable bone void filler, antimicrobial-eluting (implantable)
